

Online Learning Opportunity

Watch 24 veterinary laser video presentations from past American Laser Study Club Symposia (2020, 2019 and 2018) by purchasing our latest video combo package at \$100 and \$50 for members. This is over 15 hours of veterinary laser medicine education in HD quality. Learn more at alasc.club/vet-videos

This video package features veterinarians at the forefront of research and technology presenting on a wide variety of topics including Brachycephalic Obstructive Airway Syndrome, dermatology, dental and oral surgery, tumor removal, exotic animals, ophthalmological procedures, laser therapy, and more. The package also includes 2 bonus videos: the first is by Dr. Kumar Patel on his invention of the CO₂ laser back in the 1960s, and the second is by Dr. Robert Strauss on ablative laser surgery foundations and principles.
